## Job Description

**Job Title:** ILS Team Manager

**Company:** Artex Risk Solutions (Guernsey) Limited  
Hexagon PCC Group

**Hours of Work:** 9am to 5pm Monday to Friday

Artex is the world's fastest-growing and most diverse insurance manager. With nearly 400 staff in 15 worldwide locations, our employees work together to conceive, design and manage alternative risk transfer solutions that help our clients manage today's challenges and tomorrow's opportunities.

In this role, you will be an integral part of a dynamic team that is focused on collateralised reinsurance transactions. This includes, but is not limited to, review of reinsurance agreements, reinsurance trust agreements, excess collateral release documents and acting as liaison with the investing ILS funds. The ability to be responsive and provide exceptional customer service is critical to this position. The ILS Team Manager is focused on developing and maintaining crucial business relationships with clients, vendors and insurance carriers. Our clients rely on us to provide innovative insurance solutions that solve their business challenges and opportunities. An attention to detail and a personalized approach are key. You will review and complete transaction documentation, release excess collateral at the end of a transaction and report any information that is necessary for their programs, such as accounting information and supporting documentation, on a timely basis.

The ideal candidate is ACCA or ACII qualified with a university degree. An insurance background or an understanding of the insurance industry is highly preferred. Requirements include:

- Professional Qualification
- Exposure to PCC's
- Proven working experience within an accounts and/or insurance environment
- Attention to detail
- Excellent communication skills
- High quality administrative and organisational skills
- The ability to work effectively and accurately whilst under pressure and to deadlines
- Strong desire to succeed and highly ambitious
